LEFT-HAND DRIVE

This 2022 Adria Twin 600 SP Family is the ultimate adventure-ready van, blending clever European design with modern comforts. Well maintained by just ONE OWNER and with FSH, it is in excellent condition and ready for the open road. Driven by a capable 2.2L Citroen diesel engine with a 6-speed manual gearbox, the cab makes long hauls easy with air conditioning, cruise control, a media system, and a REVERSING CAMERA. The rear features double bunk beds. The top bunk is adjustable (and removable), while the bottom bunk lifts to create a "garage" space for gear during transit. Cook with ease using the 2-burner gas hob, sink, and extra fold-out workspace. It includes a large 3-way fridge/freezer to keep supplies fresh whether you're on or off-grid. The dinette seats four comfortably thanks to the swivel captains chairs. A compact yet functional washroom features a Thetford cassette toilet, wash basin, and integrated shower. Stay cozy in any weather with the WEBASTO DIESEL blown-air heating and Whale hot water system. All windows and the habitation door are fitted with flyscreens and blackout blinds, including the cab. Extras also include a SOLAR PANEL, AWNING for outdoor lounging, and a TV for rainy evenings. This is a rare opportunity to own a high-spec, modern camper that perfectly balances storage, sleeping capacity, and style. Why not book an viewing?
